AERIAL MACHINE GUN INVENTED BY GERMAN

Berlin, May 6.—An invention which is declared will give Germany the lead in aerial warfare is being thoroughly tested by military experts at Doeboritz Camp. The apparatus, which is the invention of an army officer, enables a machine gun to be mounted on an aeroplane in front of the pilot, who will thus be able to control both gun and machine. The gun can be turned in any direction and can be used against an enemy beneath. So far, it is stated, the experiments have been most successful.

THE HOBERGS SURPRISED

Members of the M. E. Church and the neighbors of Mr. and Mrs. John Hoberg gave them a surprise party, Tuesday. The Hobergs will leave next week for Humansville, to take charge of a stock ranch and the affair was a farewell party.

They met at the home of F. E. Shaffer and went from there to the lawn of the Hoberg home, where they stopped and sang, "Blest Be the Tie that Binds," before entering the house. Mr. and Mrs. Hoberg were very much surprised.

A handsome cut glass bowl in the snowball pattern was presented to them, Miss Alice Parsons making the presentation speech.

A happy evening was spent together. Mr. Hoberg had been superintendent of the M. E. Sunday school and the choir leader for the church for many years. The departure of Mr. and Mrs. Hoberg will make a vacancy hard to fill. The best wishes of many friends will go with them to their new home.

Nagel of Kansas City, in which he sells a section of land to the Radium Springs Co., of Jackson county. The land is located about seven miles east of Seligman and includes Radium Spring.
